

# OZAUKEE MASTER GARDENERS

## 2022 Heirloom Plant & Herb Sale

### About the Heirloom Plant & Herb Sale

This annual sale is a fundraiser for Ozaukee Master Gardeners Association (OzMG). Funds raised help OzMG provide education and volunteer services throughout the county. For a list of the projects we support, please visit [ozaukeemastergardeners.org](http://ozaukeemastergardeners.org).

### PLANT TABLES:

Generally, types of plants found at these tables:

Table 1: Culinary Herbs

Table 2: Ornamental Plants & Herbs

Table 3: Aromatic & Intrinsic Plants

Table 4: Heirloom Tomatoes & Vegetables

Table 5: Variety of Herbs & Other Plants

Please keep in mind that we cannot guarantee availability of plants on this list. We order plants/plant seeds two or more months before the sale. Uncontrollable situations, such as crop failure, could prevent us from having all plants on the list.

### PRICING:

Please do not remove the colored plastic price stakes from the pots. Plants without price stakes will be removed from your order by cashiers. You will not be able to purchase plants without colored price stakes.

Look for signs posted throughout the sale showing:

Price + Stake/Dot color

### CHECK-OUT:

Queue lines are defined by payment type. Payment can be made by cash, check, Mastercard, or Visa. Pick the line that best fits your purchasing needs. Make checks payable to: Ozaukee Master Gardeners or OzMG.

THANK YOU FOR YOUR PATIENCE!

### Keep in touch with Ozaukee Master Gardeners

We're more than this annual plant sale. Throughout the year we provide educational programming on a number of garden related topics. Some recent programs presented by renowned garden experts included:

- The Art of Growing Food (gardening designs)
- Deer Resistant Gardening
- Earth Stewardship

**JOIN OUR MAILING LIST** to receive advanced notice of our educational programs and this Annual PLANT SALE. Fill out a raffle entry (at the Sale) or sign-up under the Contact Us tab at [ozaukeemastergardeners.org](http://ozaukeemastergardeners.org).

### Caring for Your New Plants (Hardening-Off)

Our plants are grown in ideal conditions (greenhouses). These tender plants need tiny steps to acclimate to their new environment (hardening-off). They won't survive the extremes of the outdoors without your gentle guidance. Following is a hardening-off guide produced by the UW-Madison Extension.

- On a mild day (temperatures above 40° F), set your plants in a sheltered location with 1-2 hours of sunshine.
- Each day increase exposure to sunlight a few additional hours at a time, keeping them out of harsh winds and cold rains in early stages.
- As they strengthen they will also be ready to withstand stronger breezes and cooler rains.
- Gradually reduce the frequency of watering, but don't allow the seedlings to wilt.
- If temperatures below the crops minimum are forecast, bring the plants indoors or cover them to protect them from damage.
- After transplanting to the garden, use a weak fertilizer to get them growing again and help avoid transplant shock.

### About Ozaukee Master Gardeners

Ozaukee Master Gardeners Association (OzMG) has more than 100 Master Gardener volunteers who contribute over 7000 hours annually to a variety of projects and activities. We are a non-profit organization governed by an elected Executive Board.

OzMGs are aligned with the Wisconsin Master Gardener volunteer program. Volunteers receive University research-based horticulture training from the UW-Madison Extension. In turn, Master Gardeners assist with educational programs and horticulture projects that have become part of our vibrant communities. OzMGs trained volunteers:

- Promote the understanding of responsible gardening practices and provide a link between the community and UW-Madison Extension.
- Develop and increase horticultural knowledge for all Master Gardeners, thereby providing effective horticultural resources and expertise for Ozaukee County residents.
- Foster an enthusiastic love of gardening through our interactions with the community, our commitment to ongoing training and with each other.
- Commit to creating, managing and maintaining garden projects in the public view, annually reviewing the projects for their value to the community and for their alignment to our mission.

THANK YOU FOR JOINING US TODAY. **HAPPY GARDENING!**

Table	Plant Common Name	Latin Name	Annual	Biennial	Hardy Per.	Tender Per.	Height (in.)	Sun	Pt Shade	Shade	Culinary	Decorative	Fragrant	Medicinal	butterflies, birds	Comments
3	Allium, Windy City (NEW)	Allium x Windy City			X		18	X	X			X			X	Compact, clump-forming habit; strong stemmed, glossy green, thick, straplike foliage; near sterile, 2" globe-shaped, violet purple flowers blooming in July-August.
2	Anemone, Emily (NEW)	Anemone h. Emily			X		16		X			X				Features a compact habit with upright habit; slightly hairy, lobed foliage; open clusters of double, 2", light pink flowers blooming in August-October. Use in the woodland garden or border garden, in containers, and as a cut flower.
